

## Sacramento Consortium Teacher Induction Program

### Triad Meeting – Teacher, Mentor, School Administrator

Teacher:

School:

**Overview:** A professional educator’s knowledge of the school and district goals and policies at their site/assignment is important to their success as an educator. This document and the accompanying conversation will help you understand your local teaching context and connect you to the professional community. In a meeting with your administrator or designee, and mentor, discuss areas of the document below where you might need more information, including the school and district goals. It is not necessary to address each line item, but rather this document should be used as a guideline to support greater understanding of the school context. The notes section is a place to document information that will be helpful to you in accessing needed information in the future.

**Task:** Review the purple sections with your mentor prior to meeting with your administrator. Highlight any areas where you need more information from your administrator. During the Triad meeting with your administrator, review any highlighted purple sections, the Administrative Consultation section (orange), and the Community of Support section (yellow). **Teacher uploads the last page of this document once completed and signed by all participants.**
